SKILL SHARE SESSION 1A

GOVERNANCE MECHANISMS

Forest monitoring and assessment: Community-based tools, methods and approaches

In the CSO Forum, our goal towards inclusive, participatory and effective forest governance is to see that the indigenous peoples and local communities and their organizations are enabled and have the capacity to protect and manage their CFs sustainably; to take an active part in the decision-making as well as in the operational aspects, one of the key governance functions and capacities necessary is to monitor and assess community forestry.

Skillshare Objectives:

- Introduce and practice a few examples of community based forest monitoring and assessment tools
- Share a simple CF assessment framework implementable by CF groups
- Share common do's and don't for CF monitoring and assessment.
