

MEETING AGENDA

VIETNAMESE INVESTORS AND CAMBODIA'S NGO ORGANIZATIONS NETWORKING FOR SUSTAINABLE DEVELOPMENT

Introduction

People and Nature Reconciliation (PanNature) is a Vietnamese NGO who specializes in environment and nature conservation. Since 2015, PanNature has started an initiative engaging Vietnamese private sector to leverage their social and environmental responsibilities in oversea agricultural investment, which aims to contribute to more sustainable investment and development in Mekong region. PanNature and its core partner Oxfam and Vietnam Chamber of Commercial and Industries (VCCI) and group of private sectors developed the Voluntary Safeguard Guideline for the sector in 2016 and have been piloting the guideline application. Vietnam Rubber Group (VRG) and Daklak Rubber Investment Joint Stock Company (DRI) are pioneers on piloting in their projects in Laos and Cambodia.

In Cambodia, Krong Buk Ratanakiri Aphivath Caoutchouc Co., Ltd (KRRC) – a member of VRG has invested in rubber plantation in Ratanakiri province in the Northeast Cambodia. They are implementing their action plans on community development and building skills and looking for local NGO partners working on development themes for collaboration.

PanNature organizes this meeting aim to connecting our business partners in piloting program with NGO organizations in Cambodia. We expect this meeting will strengthen the exchange dialogue between NGOs and Vietnamese private sectors and open an opportunity for further collaboration. This meeting is organized with a finance support by Oxfam in Vietnam.
